

Data Use Agreement

I request access to the AIDE breast MR data for the purpose of scientific investigation or the planning of clinical research studies and agree to the following terms:

1. I will receive access to de-identified data and will not attempt to establish the identity of, or attempt to contact any of the patients.
2. I will not further disclose these data beyond the uses outlined in this agreement and my data use application and understand that redistribution of the data in any manner is prohibited.
3. I will require anyone in my team who utilizes these data, or anyone with whom I share these data to comply with this data use agreement.
4. I will accurately provide the requested information for persons who will use these data and the analyses that are planned using these data.
5. I will comply with any rules and regulations imposed by my institution and its institutional review board in requesting these data.
6. If I publish materials (abstracts, papers, reports, etc.) using the downloaded data, I will cite the paper “AIDE: Annotation-efficient deep learning for automatic medical image segmentation” as the source of data.
7. I will notify the corresponding authors (S.S.W and C.L.) of “AIDE: Annotation-efficient deep learning for automatic medical image segmentation” about any publication that is (partly) based on the downloaded data.

I understand that failure to abide by these guidelines will result in termination of my privileges to access the data.
